This week's EVA Chartbook by Jeff Dicks explores recent market volatility in the context of the 2010 "Flash Crash" and explains why structural changes in the years since 2008 have left our financial markets more vulnerable to sudden stops and sharp dislocations.

We are also excited to announce that Jeff recently earned the Chartered Financial Analyst® designation and has officially joined the Evergreen GaveKal Investment Committee. You can expect to hear a lot more from this rising star in the coming months.
